INTRODUCTION

The Intex Family of companies is dedicated to developing and manufacturing the highest quality products that not only provide the best value in price, but are innovative, fun and exciting. Backed by excellent Customer Service, Intex also provides first-rate after sales support. The 100+ independently owned and locally operated companies that make up the Intex Family, all embrace this commitment to quality, service and price and are committed to working together to ensure the satisfaction of the families and individuals in countries across the globe who enjoy these products. This has become the hallmark of Intex around the world.

As a true industry leader, Intex boasts state of the art factories, trained and motivated people, products that meet rigorous testing requirements, and a Customer Service organization that will go extra lengths to ensure our customers are satisfied and happy with their purchases.

When you purchase an Intex product you can be confident that you are buying the best product, at the best price, backed by the best Customer Service organization in the industry.

2020

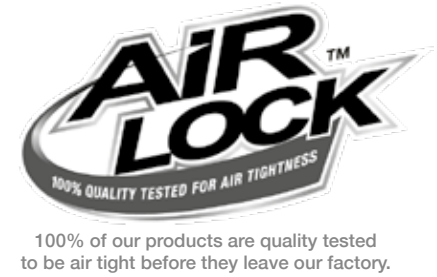

Intex is committed to delivering top quality products at a great value with the backing of a responsive Customer Service organization. Our Airbed line is unmatched for breadth and beauty. With the introduction of our new innovative, patented Fiber-Tech™ Technology, we have engineered a way to combine durability with exceptional comfort, creating airbeds that rival the stability, support and comfort of a traditional mattress. The “Dura-Beam®” series utilizes superior Fiber-Tech™ interior construction to create a line of airbeds that are lighter, stronger, and more comfortable than an average airbed. With “PremAire®”, Intex has combined our manufacturing technologies with our engineering strengths of Fiber-Tech™ to bring you the most innovative, luxurious, and comfortable bed in the market today.

Our Comfort Rest® line of airbeds consists of five series designed to meet all your customers’ needs: the “Dura-Beam® Standard Series” offers a line of durable and comfortable airbeds with attractive opening price points. “Dura-Beam® Plus Series” features a wide variety of premium quality raised airbeds. “Dura-Beam® Deluxe Series” offers a line of luxurious raised airbeds with enhanced sleeping surfaces. Our top-of-the-line “PremAire® Airbeds” bring a new level of luxury and innovation to our collection. Elegantly designed with puncture resistant laminated PVC exterior, plushy pillow top and superb structural durability, PremAire® Airbeds offer unparalleled comfort. The “Camping” series is engineered for camping, travel, and all-around rugged use, with beds perfectly suited to the outdoor environment. And for the young at heart, our “Air Furniture” series comes with bright colors and fresh design concepts, guaranteed to attract a loyal following of young adults! Ask your Intex representative for any of our product catalogs – we are confident that you will agree that Intex’s product line is unmatched in meeting your needs.

COMMITMENT TO EXCELLENCE

Intex's Commitment to Excellence encompasses every single product that leaves our factory. We achieve this by maintaining the highest levels of quality assurance — such as inflating and testing every single airbed to ensure the Air Lock® guarantee. It's that simple.

In today's rapidly evolving and highly competitive environment, this translates into a total commitment to product quality, including conformity to all relevant safety & quality regulations and standards. Examples include:

- EN 16927, Safety and test methods for mini pools (European standard)
- EN 16582, Safety and test methods for domestic swimming pools other than mini pools (European standard)
- Regulation (EC) No.1907/2006 "Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)"
- EN 71 "Safety of toys" (European standard)
- EN 13138 "Buoyant aids for swimming instruction" (European standard)
- EN ISO 25649 "Floating leisure articles for use on and in the water" (European/ International standard for air mats, lounges and other similar items)
- EN 60335-2-41 "Safety of household and similar electrical appliances, particular requirements for pumps" (European standard for water pumps)
- ISO 6185-1 "Inflatable boats" (International standard for Sports Boats)
- NMMA-ABYC (USA standard for hi-end sports boats)
- ASTM F963 "Standard Consumer Safety Specification for Toy Safety" (USA toy standard)
- ANSI/APSP-4 "AGP standard" (USA standard for above ground pools)
- CPSIA "Consumer Product Safety Improvement Act" (USA regulation of consumer and children's products)

- ASTM F2666 "Small pools standard" (USA standard for pools under 36" water depth)
- UL1450 "Electric inflators" (USA standard for electric inflators)
- UL1081 "Swimming pool pumps, filters and chlorinators" (USA standard)
- UL1563 "Electric spas" (USA standard for Spa)

Intex's commitment to excellence extends to helping our environment and supporting the ecosystem. It begins with product design. Intex's filter pumps operate on much lower amps than most filter pumps in the market, reducing electricity consumption. Our saltwater systems clean pools using only natural salt, eliminating the ongoing need for environmentally unfriendly packaged chlorine.

Intex also operates one of the most comprehensive recycling programs in the industry. We are one of the earliest companies in China to successfully obtain a license to ship consumer's returns in the original package back to China to be recycled. Therefore, used materials and product returns are prevented from going to landfills and instead re-used in the manufacturing process where up to 10% of annually produced PVC is recycled.

Intex designs all of our own packaging for our products. We constantly challenge our methods of packaging to improve

efficiency and reduce waste. More compact packaging techniques save cardboard while cutting down on space utilization, saving freight and fuel consumption.

As a manufacturer, Intex knows it has a responsibility to manage the amount of waste produced. As an employer of over ten thousand people, we also encourage our own employees to recycle, reduce waste, and be conscious of the environment. Starting from recycling corners for all our worldwide office facilities, our factory has worked with the local government as well as through sponsorships with key partners to strengthen our efforts to be more eco-friendly. Intex has worked to provide incentives and seminars to employees as well as setting targets to reduce energy consumption. In addition, Intex has made significant investment in technology to achieve these goals. For example, we have implemented a frequency converter system which converts diesel to natural gas, installed solar water heaters and set up a recycled sewage system, and invested in equipment that reduces gas emissions.

From product design, to more efficient processes that save energy and reduce waste, to a world class recycling program, to more energy efficient offices, the people at Intex are striving to provide the best value products anywhere while constantly keeping our global ecosystem in mind.

INTRODUCING FIBER-TECH™ TECHNOLOGY by INTEX®

High-Strength Polyester Fibers

Fiber-Tech™ Interior Construction

An Incredible Night's Sleep Starts With a Single Thread...

Designed for Comfort Engineered for Durability

Our innovative, patented Fiber-Tech™ Technology airbeds are comprised of thousands of high-strength polyester fibers. Unlike traditional airbed construction, these high-strength polyester fibers do not stretch over time, resulting in amazing durability for years of lasting comfort. Fiber-Tech™ interior construction provides the ideal firmness for superb support and rejuvenating sleep.

FIND YOUR PERFECT COMFORT

INTEX offers a comprehensive range of airbeds, covering a variety of comfort options to provide the PERFECT SLEEP SOLUTION that fits your indoor or outdoor occasions.

Top of the line innovation in comfort.

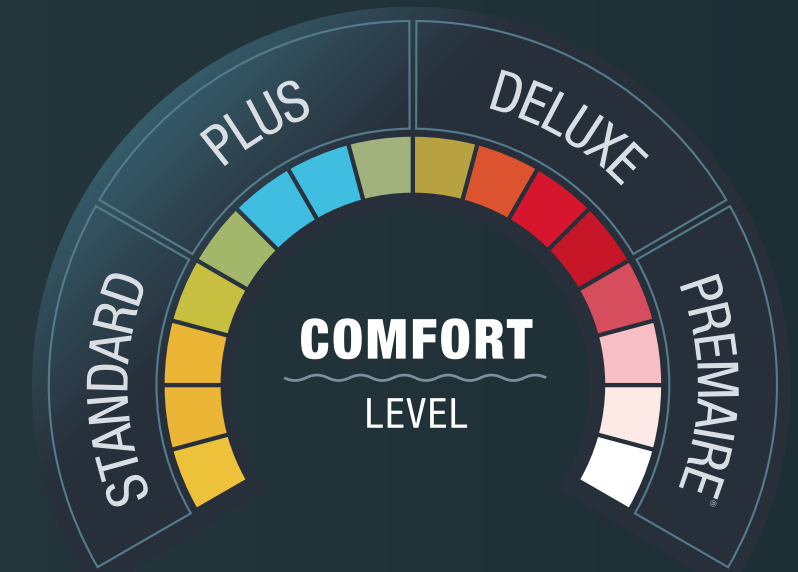

For those who need a little luxury.

When you're ready to step it up higher.

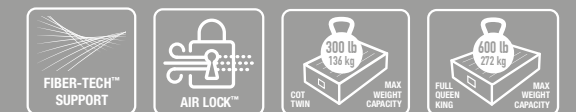

All the basic comfort you need.

DURA-BEAM® STANDARD SERIES

Portable sleep. Anywhere.

Our Dura-Beam® Standard airbeds provide a perfect and affordable short-term sleep solution to any indoor or outdoor occasion. These airbeds feature the patented Fiber-Tech™ interior construction for the best in class support with a bed height up to 12". They are ideal for traveling, camping, and for accommodating overnight guests.

DURA-BEAM® DELUXE SERIES

Wake up to a whole new you

Our Dura-Beam® Deluxe airbeds are designed to provide a truly exceptional sleep experience. Incorporating luxurious features for enhanced comfort, these beds are the perfect sleep solution for nights of restful sleep. Intex signature Fiber-Tech™ interior construction with horizontal beams creates maximum structural stability and support, while the soft dual-layer comfort top provides a smooth sleeping surface that contours to the body for an exceptional level of comfort. The velvety soft surface covers the top and sides of the bed for a truly luxurious feel. Raised bed heights make it easy to get in and out of bed, and the powerful internal pump makes inflation and deflation quick and effortless. Transform your sleeping experience with Dura-Beam® Deluxe airbeds.

DURA-BEAM® DELUXE SERIES

SUPREME AIR-FLOW™

AIRBED WITH FIBER-TECH™ TECHNOLOGY

ELEVATED WITH INTERNAL PUMP

- Fiber-Tech™ Technology
- Velvety soft comfort top surface
- Double layered construction to easily tuck in sheets
- Mattress is raised 20" (51cm) from the floor for convenience
- Powerful internal pump for rapid inflation and deflation

Our Supreme Air-Flow™ Airbed is engineered with Fiber-Tech™ Technology to provide the ultimate in comfort with the look and feel of a real high end bed. A network of inter-connected air pockets on the top and sides of the bed cause the air to flow smoothly and gradually across the sleeping surface for unbelievable comfort and stability. Double layered construction allows for standard fitted sheets to tuck in easily.

3 ea, 8.4 lb (3.8 kg)

#68693

**68695 / E
LED FLOATING GLOBE**

- 35" x 31" (89cm x 79cm) inflated
- Great for indoor or outdoor use
- IPX8 waterproof
- 5-hour auto shut-off
- Rechargeable 2500mAh battery
- 12 white LED lights, 2.4W

- 1 RGB LED light, 3W
- USB cord for charging (wall charger not included)
- Repair patch
- Shelf box

3 ea, 11.9 lb (5.4 kg)

#68695

Accessories

Manual Pumps

68612 / E
DOUBLE QUICK I HAND PUMP

- 3 interconnecting nozzles with hose
- TUV RL approved
- Inflates on both up and down strokes
- Shelf box 11½" (29cm)
- 12 ea, 11.1 lb (5.0 kg)

68614 / E
DOUBLE QUICK II HAND PUMP

- 2 times the air flow of #68612
- 3 interconnecting nozzles with hose
- TUV RL approved
- Inflates on both up and down strokes
- Shelf box 14" (36cm)
- 4 ea, 6.1 lb (2.8 kg)

68605 / E
DOUBLE QUICK III S HAND PUMP

- 3 times the air flow of #68612
- 3 interconnecting nozzles with hoses
- TUV RL approved
- Inflates and deflates
- Inflates on both up and down strokes
- Shelf box 14½" (37cm)
- 3 ea, 6.3 lb (2.9 kg)

68615 / E
DOUBLE QUICK III HAND PUMP

- 3½ times the air flow of #68612
- TUV RL approved
- Large nozzle threaded for athletic ball inflating needle (one included)
- Inflates athletic balls up to 8 psi
- Inflates and deflates
- Pumps on both up and down strokes
- Accordion hose with 4 nozzles
- Shelf box 19" (48cm)
- 3 ea, 7.6 lb (3.5 kg)

69613 / E
DOUBLE QUICK MINI HAND PUMP

- TUV RL approved
- Inflates on fore and back strokes
- 11½" (29cm)
- 24 ea, 7.5 lb (3.4 kg)

69611 / E
BELLOW FOOT PUMP

- TUV RL approved
- Inflates and deflates
- Shrink-wrapped with litho label
- 11" (28cm)
- 6 ea, 8.4 lb (3.8 kg)

68610 / E
GIANT BELLOWS FOOT PUMP

- 50% more air flow than of #69611
- TUV RL approved
- Inflates and deflates
- Shelf box 12" (30cm)
- 6 ea, 13.6 lb (6.2 kg)

Accessories

Electric Pumps

66638 / E

QUICK-FILL™ BATTERY PUMP
features include:

- Operates on 6 C-cell size batteries
- 3 interconnecting nozzles
- CE approved
- Shelf box

6 C Batteries Required
(not included)

Nozzles Fit
Any Valve Size

66633E (110-120V) shown
66634 (220-240V)

QUICK-FILL™ AC/DC ELECTRIC PUMP
features include:

- 3 interconnecting nozzles
- 12V DC & AC power adapter for easy Outdoor and Indoor use
- ETL approved (110-120V)
- CE approved (220-240V)
- Shelf box

66643E (110-120V) shown
66644 (220-240V)

QUICK-FILL™ AC ELECTRIC PUMP
features include:

- 3 interconnecting nozzles with hose
- Thermo protector incorporated for safety
- New shape with easy carry handle
- TUV approved (110-120V model)
- GS, CE approved (220-240V model)
- Shelf box

68608E (110-120V)
68609 (220-240V)

QUICK-FILL™ HIGH PSI INDOOR / OUTDOOR ELECTRIC PUMP
features include:

- 3 interconnecting nozzles with hose
- For both indoor and outdoor use - plugs into cigarette lighter or household electrical outlet
- 2-speed switch
- Inflates athletic balls up to 12 psi
- Detachable DC cigarette cord
- ETL approved (110-120V)
- GS, CE approved (220-240V)
- Shelf box

66639E (110-120V)
66640 (220-240V)

QUICK-FILL™ AC ELECTRIC PUMP
features include:

- 3 interconnecting nozzles
- Thermo protector incorporated for safety
- TUV approved (110-120V)
- GS, CE approved (220-240V)
- Shelf box

66636 / E (12V)

QUICK-FILL™ DC ELECTRIC PUMP
features include:

- 3 interconnecting nozzles
- Plug into 12V DC automobile cigarette lighter or 12V DC accessory outlet
- ETL approved
- CE approved
- Shelf box

12V Car Adapter

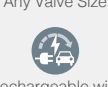

Nozzles Fit
Any Valve Size

66641E (110-120V) shown
66642 (220-240V)

QUICK-FILL™ RECHARGEABLE PUMP
features include:

- 3 interconnecting nozzles
- A 12V DC power adapter for vehicle charging and a household AC power adapter for home charging
- 12V DC to inflate and deflate while recharging
- Automatic over-charge cut off for safety protection
- New shape with easy carry handle
- Built-in Battery charging indicator
- ETL approved (110-120V)
- CE approved (220-240V)
- Shelf box

Rechargeable with
AC or Car

These Quick-Fill™ electric pumps have a sleek, aerodynamic design that fits perfectly in the palm of your hand, yet still inflate even the largest of inflatables in a breeze.
